Subject: Regarding summary for public meetings
Date: Saturday, March 23, 2019 8:49:52 AM

Can we have one repository for all the updates for summaries of info (aspect, TAGA, mgmt statements re xyz, etc) so that I'm not getting 14 emails with summaries?

And then I get one summary from the repository will all the info?

Can we make this happen quickly?

Thanks for the help
